

## Everything You Need, Right At Your Fingertips

### All-In-One Design

The new Shuttle X50 V2 has packed everything you need into one sleek, smooth, and clean-lined design, including touch-screen capabilities. The all-in-one design eliminates the tower and fits everything into a space-saving design that takes little desk space.

### Made For Your Fingertips

Scroll. Zoom. Rotate. Flip. With the new X50 V2, Shuttle introduces a better touch technology that's a more natural way to work and play. Scroll through documents or manage your photos and videos with simple finger taps and hand gestures.

### Built-In Webcam and Microphone

The built-in 1.3 mega pixel webcam and microphone makes it easy to take pictures or stream live images across the Internet – and connect in real-time with friends, family, and colleagues.

## Always Green

### Fanless

The Shuttle X50 V2 features a cooling system that combines and integrated heat-sink with thermal pads – and removes the fan. As an added benefit, it's not only quiet but also dust-free.

### Eco Friendly

Shuttle ensured that all components and materials inside follow the rigorous green guidelines of RoHS, for a package that's greener and better for the environment than you can imagine. Plus, with an ENERGY STAR 5.0 qualified power adapter, it's even easy on your energy bill, drawing a mere 30 watts of power.

## Slim & Chic, for the Modern Lifestyle

### Ultra Slim

The sleek, all-in-one design is not only packed with powerful features, it's a mere 36mm (1.4 inches) slim. That means this all-in-one has more performance for its size than virtually anything else on the market.

### Convertible Stand

The unique stand on the Shuttle X50 V2 can be easily customized to the way you work and play. It can be set from 0-180 degrees, whatever angle that works best for your environment. What's more, the stand is convertible so it can be pulled up to double as a carrying handle for easy portability.

### VESA Ready

Designed to fit seamlessly into your lifestyle, the convertible stand on the Shuttle X50 V2 even can be removed to reveal VESA standard hole patterns. That means it's ready for use with any standard mounting device that best blends into your environment.

## Simply Fun

### Communication

Keeping connected with family, friends, and colleagues is easier and more convenient than ever before. The intuitive multi-touch interface requires just a touch to start your chats and conversations.

### Entertainment

With the most powerful processor in its class, the Shuttle X50 V2 makes it easy for you to enjoy your favorite music, movies, and videos. It's perfect for your everyday digital entertainment.
